About me

My name is Asya. I am a student at NBU in Sofia and my major is Informatics. I have completed the SoftUni Creative path for Graphic Designer and UI/UX Designer. Through the years I have worked with many teams on different projects in the fields of Robotics, Informational technologies and Multimedia projects. Currently

I am studying on my own to become a Front-End Developer. I am also a mentor of a kid's robotic team at my home town Razgrad. My goal is to learn as much as I can and to be helpful to as many people as possible.
